**E-COMMERCE**

**HOW START AN E-COMMERCE BUSINESS?**

**STEP 1**
**Product Selection**
The initial step to developing an online business is comprehending what items you need to sell to the customers online.

**STEP 2**
**Begin niche research**
It's a useless effort to list several items, many categories, and no core focus. Except for the fact that you have a huge budget.

**STEP 3**
**Recognize your competition**
Competition authenticates the market and guarantees that there’s money to be made in the niche. The ideal way for you now is to find out about those competitors and what you can study from them.

**STEP 4**
**DEVELOP YOUR E-COMMERCE STORE**
After deciding on the product and analyzing your competition. The following step is to develop your website for your online store.

**STEP 5**
**DETERMINE AT LEAST ONE-YEAR SEO STRATEGY**
In case you’ve never begun an online store from zero. it’s difficult to see how tedious and comprehensive the procedure is. At the time of looking at any eCommerce website.
